**L2**

L2 is the meat box conceived to meet the needs of the meat processing industry. The L2 model is basically designed to contain loins: thanks to its size, more space is available for the loins, which, in this way, do not have to be curled.

According to its specifications and its design, L2 can form loading units with European standard boxes E1 and E2 onto 800x600 and 1200x800 mm pallets.
